NOTICE TO MARINERS

Deployment of Acoustic Receivers

AS LAID POSITIONS DEPLOYMENT

The Atlantic Salmon Trust/Zoological Society London has installed **52** moorings in **Loch Roag**. The moorings hold research equipment that support hydrophone receivers that log the acoustic ID tag transmitters. Below are a map and a table with the locations of these moorings. The moorings were deployed from 10th April 2023 and will be removed by **the 31st March 2024**. The seabed is leased under a Crown Estate Scotland licence.

The hydrophones are located on the seabed and have no surface markers, and have riser lines with scientific instruments that extend vertically no more than 2m (LAT). These moorings will be recovered in their entirety.

If you trawl or dredge up a receiver (see photos), please do not throw it back into the water. Please retain it and contact bill@atlanticsalmontrust.org to arrange collection.

Project-related enquiries should be made to lorna@atlanticsalmontrust.org
