## Vessels & General Safety Advice

Scottish Hydro Electric Power Distribution (SHEPD)

**ED2 Campaign 2 & 3 Subsea Inspections**

Date of Issue: 16th March 2026

### PROJECT OVERVIEW

Please be advised that Aspect Land & Hydrographic Surveys Ltd (on behalf of SHEPD) will be undertaking a subsea inspection in the Outer Hebrides marine area. Please refer to Figure 1 that highlights the location.

Given the different conditions and water depths anticipated on site, a range of vessels will be available for the project, detailed overleaf.

The inspection works will be centred on a 50m cable corridor, defined by the start and end coordinates listed in Table 1.

Circuit ID	Cable Name	Start Point		End Point	
		Latitude [WGS 84]	Longitude [WGS 84]	Latitude [WGS 84]	Longitude [WGS 84]
SHEPD_168	Skye - Harris	57°33.267'N	6°38.717'W	57°48.333'N	6°51.800'W

TABLE 1 - CABLE LOCATIONS & COORDINATES

The start date and anticipated duration can be found overleaf.

## LOCATION DETAILS

Cable location and indicative survey corridors are noted below for information. Equipment calibration operations may take place out with the defined corridor and these areas will be chosen so as not to interfere with fishing / marine traffic activity.

## VESSEL DETAILS

The vessels conducting these works will be restricted in their ability to manoeuvre and will display the appropriate lights and shapes.

Other vessels are requested to pass at a safe speed and provide a minimum clearance of 500m (COLREGs Rule 16 & 18) during marine operations.

All vessels will monitor VHF Channel 16 throughout survey operations. Mobile contacts for the vessels are listed at the end of this NtM.
