

Notice to Mariners

Vessels and General Safety Advice

Scottish Hydro Electric Power Distribution (SHEPD) ED2 Cable Installation Works: Mull-Iona

Date of Issue: 8th April 2026

Please be advised that Briggs Marine Contractors (on behalf of SHEPD) will be undertaking a ROV survey of the recently installed cable between Mull and Iona. Please refer to Figure 1 that shows the location of the planned works. Please also refer to Table 2 overleaf that lists the coordinates for the area.

The ROV survey will take place with the CBS Hurricane and will be regularly passing inside the working corridor.

Please refer to Table 1 that lists scope of work, estimated date range and the relevant vessels that will be utilised. As work progresses, further updates will be provided.

Legal Notice

Please be advised that this Notice to Mariners should be treated as official notice of the nature, duration and location of the works which are scheduled to take place. During the period of this notice, we request that you plan your activities around our short-term, temporary activities.

Entry into the identified location in a manner that would constitute a hazard may be a breach of your duties of safe seamanship as described in the Convention on International Regulations for Preventing Collisions at Sea 1972 and/or the Merchant Shipping Act 1995, and may result in removal of the relevant equipment. Failure to remove equipment or entry into the identified location in a manner that would constitute a hazard may constitute a breach of duty of care at common law, and a failure to protect submarine cables for successful seabed user co-existence under Scotland's National Marine Plan.

SHEPD shall found on this notice in the event of any damage, loss or disruption arising from failure to heed the information herein.

Work Description

During operations the CBS Hurricane will be restricted in their ability to manoeuvre. Whilst operations will seek to minimise disruption on the width of the main navigation channel, some disruption may be unavoidable during operations within the working corridor.

Operations will be conducted over 12 hours and are weather/tide dependent.

Should any vessel wish to come within 250m of the vessel, then direct communication with the Master / Operator is required. Vessels will display the appropriate lights/day shapes for their operations.
